Number of books added to the library during the past year, 345.

Our library now contains 6,944 volumes.

We would again call the attention of our citizens to the provisions of Chapter 8 of the Public Statutes of New Hampshire and also to Chapter 118 of the Laws of 1895 in relation to the establishment and maintenance of free public libraries.

We gratefully acknowledge the receipt of various reports and public documents from the state and general government.

OTHER GIFTS DURING THE YEAR.

Miss Richards, Providence, 150 books.

Miss Fancon, Milton, Mass., 5 agricultural books.

Miss Wheeler, Providence, 1 book.

Mrs. Austin, Providence, 1 book.

Mrs. Deane, New York, 2 books.

The Misses Ayers, Medford, 1 book, and "Dumb Animals."

Miss Edwards, New York, 1 book.

Miss Maud Kimball, 1 book and pamphlets.

Miss Davis, 5 books.

Miss Ayer, "Our Four-footed Friends," magazines and papers.

Miss Cheney, "The Outing Magazine," 1911.

Mr. Eliot, "Bird-Lore."

Lawrence and John Blair, "Our Little Ones."

Magazines from Mrs. Estabrook, Mrs. J. S. Blair, Mrs. Campbell, Mr. Chaplin and Mr. Gilson.

Mr. Gilson, work in putting up shelves and bookcases.

We take this opportunity to thank the friends of the library who made Mr. Miles' concert possible, also the many

others who by gifts of books, magazines and papers during the year have made the library more helpful and interesting. We are greatly indebted to Miss Richards, of Providence, for buying our fiction at one-fourth the usual price, so giving us more money for juvenile books and those of more lasting value.

If there are those in town who would like to borrow books from the library and find it inconvenient to do so with the present arrangement, will they make it known to the librarian?

The library is in much need of more shelf room on which to store the books. We trust the town will furnish two or three more bookcases at an early date.

We would again ask the patrons of the library to exercise more care in the use of the books, as much damage can be done by the manner in which they are opened and handled.

Respectfully submitted,

ANNIE L. COLBY,
Librarian.

Fitzwilliam, Feb. 21, 1911.

During the year 1910 we have built about 900 feet of crushed stone walks. The greater part of this was 6 feet of wide and nearly 200 feet was made with stone curbing on the road side. From our experience of last year it was thought best to use crushed stone entirely for what new construction we made, as the ash walks have not proved at all satisfactory in the spring of the year when sidewalks are most needed. We are indebted to Mr. S. S. Stone for a donation of nearly 100 feet stone for curbing, and also to the Boys' Club of the Baptist society, who paid one-half the expense of building the sidewalks in front of the church.

Much care has been taken to keep the turf and walks on the common well mowed and trimmed and the litter raked up, and it is gratifying to note an increasing tendency to use it, both by our townspeople and visitors, for walking and reading.

Let us all take the same pride in its care that we should in our own yard and aid the caretaker by not thoughtlessly scattering papers and rubbish about on the grass.

Respectfully submitted,

FRANCIS R. PARKER,

WALTER E. EMERSON,

Commissioners Fitzwilliam Village District.

The pupils in town are unusually well divided up among the different schools; the only large school having but forty-two pupils at present. Relief in this school was gained by the action of the school board in making the age of admission six years instead of five, and allowing pupils to begin their school life only in September. This rule is not only to the advantage of our schools, but I believe that as great a gain will come to the average child in being allowed a year more of free child life before beginning school work.

The attendance during the present year has been excellent but I do not consider it satisfactory as long as parents allow their children to be absent for trivial reasons, contrary to law and to the detriment of the child and the school. Probably more than half our absences and a few of our tardinesses are necessary, but the rest might be avoided if the parents realized the importance of regularity and punctuality in the lives of their children.

Below is a list of the schools showing the percentage of attendance and the number of tardinesses for the first twenty weeks of this year, also the same facts for last year, arranged in order of excellence in attendance.

The heating and ventilation of the village and Depot schools is excellent, and the furnaces which have been installed will be a benefit, both in the above mentioned respects, and in

convenience. While there has been some difficulty in their operation, their efficiency has been demonstrated and entirely satisfactory results may be expected.

Our school buildings are in reasonably good repair and nearly every school room is in good condition, but it seems to me that arrangements should be made for more frequent cleaning of schoolhouses. Once each term would surely not be too often for washing all floors in school rooms, entries and out-buildings. Unless our standards of cleanliness are as high for our school buildings as for our homes there is little use for teachers to try to teach the subjects of sanitation and hygiene to pupils who are being taught by example that their elders do not consider these principles of importance.

A school examination of vision and hearing has been made by the teachers and, where possible, pupils have been so seated as to lessen the inconvenience of such defects as have been found.

More satisfactory results in music would be obtained if the supervisor were to continue her visits throughout the year. At present no visits are made to the schools during the winter term, and part of the spring term is needed to get back into good working relations.

Additions to the supplementary reading material have been made during the year and uniform books in arithmetic are in use in all schools. The sets of readers are transferred from school to school, so that the greatest possible use is made of all available material.

If drawing can be introduced into the schools under the direction of the supervisor of music, who is also qualified to supervise drawing, without extra expense except for material, I think it will be wise to arrange for its introduction. I recognize the fact that we need better teaching, not more subjects to teach, but conceptions of form and color and ability to express such conceptions are an essential part of a child's education.

In several schools the blackboards are in a very unsatisfactory condition and ought to be replaced by slate boards. I

would urge that at least some slate boards be purchased for the No. 10 school and the primary school at the Depot. The initial cost is a little more, but the advantages of durability and better writing surface outweighs that consideration.

The superintendent appreciates the courtesy of those who have come to him in matters relating to the school work and will always welcome the suggestion or criticism of any parent or citizen who desires better schools.

Respectfully submitted,

JAMES N. PRINGLE,
Superintendent of Schools.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. J. W. Pringle, Superintendent of Schools:

I present the following report of the work done in music during the past half year.

In the first three grades, rote songs are taught. Work began with the simplest keys, notes and rests, including individual scale and interval work daily. The New Educational Music Course, First Reader is used.

With a continuation of the technical work, the First and Second Readers are introduced in the upper grades. Sight-singing, transposing and written work is carried on.

After the fall term my visits were discontinued but the teachers have gone on with work based upon outlines presented by the supervisor.

I sincerely thank our superintendent, Mr. Pringle, teachers and pupils for the kind support given me since I have taken up my work in Fitzwilliam.

Respectfully submitted,

AMY B. KNEELAND,
Supervisor of Music.

I hereby certify that the foregoing transcript of births, marriages and deaths is correct, according to the best of my knowledge and belief.

JULIUS H. FIRMIN,
Town Clerk.

REPORT OF BOARD OF HEALTH.

During the past year there have been two cases of diphtheria and five cases of scarlet fever in Fitzwilliam.

In all instances the houses were placarded and every precaution taken to prevent the spread of the disease.

All recovered and the houses were thoroughly fumigated.

The schoolhouses at village and depot were also fumigated as a precautionary measure, as we were unable to locate the source from which the diseases were contracted.

One house was fumigated on account of a death from tuberculosis having occurred.

GEO. S. EMERSON, M. D.,

ARTHUR T. BYAM,

Board of Health.

[TOWN WARRANT.]

THE STATE OF NEW HAMPSHIRE.

To the inhabitants of the town of Fitzwilliam, in the county of Cheshire, in said state, qualified to vote in town affairs:

You are hereby notified to meet at the town hall in said Fitzwilliam, on Tuesday, the fourteenth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

Article 1.—To hear and act upon reports of agents, auditors, committees or officers heretofore chosen.

Art. 2.—To choose all necessary town officers for the year ensuing.

Art. 3.—To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriations for the same.

Art. 4.—To allow accounts against the town.

Art. 5.—To raise and appropriate money for repairs of highways and bridges and determine the amount.

Art. 6.—To see what action the town will take in regard to the appointment of a liquor agent for the ensuing year.

Art. 7.—To see if the town will raise and appropriate a sum not to exceed three hundred dollars to purchase a new road machine.

Art. 8.—To see if the town will determine the price to be paid for teams for highway work.

Art. 9.—To see if the town will instruct the selectmen to apply for state aid for the permanent improvement of highways.

Art. 10.—To see if the town will raise and appropriate a sum not to exceed three hundred dollars to build a new water tank near the town hall for fire protection.

Art. 11.—To see what action the town will take in regard to electric lights.
